Arizona's Matrix:
Updated

My Framework

The AzN Evaluation Framework is comprehensive, covering all 16 AzN strategies and spanning many years. But for Contractors, it can be daunting to look at the entire framework and try to figure out what is relevant to just one county, just one focus area, or just one year.

Now you can create your own custom framework. Here, you will be able to select the county(-ies) and year(s) you want to include in your custom framework, and you will also be able to choose which focus areas or strategies to include.

Just move through the drop down boxes to select your preferences, and at the end click the button, **CUSTOMIZE MY FRAMEWORK!**

Once you have your framework, be sure to check out our website resources specific to the assessments you need to carry out. These include online trainings, actual assessment materials, and helpful links.

Name *
Jane Doe

County *
Pima County

- Food Systems
 - Strategy 1 Increase availability of health food retail.
 - Strategy 2 Encourage participation in community, home, and school gardens.
 - Strategy 3 Start and expand Farm to School, Farm to Child Care, or Farm to Work program.
 - Strategy 4 Support implementation and promotion of the Summer Food Service Program.
 - Strategy 5 Encourage use of farmers' market with SNAP and WIC access at key community outlets.
- Active Living
- School Health
- Early Childhood
- Direct Education
