

Sticker Placement Guide

General Instructions

Prepare the Surface:

Ensure the retractable banner or fence banner surface is clean, dry, and free of dust or debris. Wipe it down with a clean cloth if necessary.

Identify Placement Area:

Refer to the provided placement guidelines (diagrams/measurements below) to determine the exact location for each sticker.

Peel Carefully:

Gently peel the sticker from its backing paper, starting from one edge. Avoid touching the adhesive side as much as possible.

Align and Apply:

Carefully align the sticker with the marked or indicated area on the banners. Once aligned, press the sticker firmly onto the surface, working from the center outwards to avoid air bubbles.

Smooth Thoroughly:

Use your fingers or a credit card to smooth the sticker completely, ensuring good adhesion across the entire surface. Pay close attention to the edges.

Repeat:

Follow the same steps for each sticker according to the placement guidelines.

Retractable Banners

Specific Placement Instructions

Apply the smaller (6x3) logo sticker 1 inch from the top edge of the retractable banner, centered above the existing logo. Leave approximately 0.4 inches of space between the bottom of the new sticker and the top of the existing logo.

Fence Banners

Specific Placement Instructions

Apply the larger (8x4) logo sticker centered vertically above the existing logo on the fence banner. Center it horizontally across the width of the existing logo, leaving approximately .45 inches of space between the top of the existing logo and the bottom of the new sticker.
